#### "CAPS" CALCULATIONS

N.J.S.40A:4 - 45.1 et. seq. "The Local Government Cap Law" places limits on municipal expenditures. Commonly referred to as the "CAPS", it is actually calculated by a method established by the law.

In general the actual calculation works as follows. Starting with the figure in the 2015 budget for Total General Appropriations certain 2015 budget figures are subtracted; including

the reserve for uncollected taxes, debt service, State and Federal aid, etc. Take the resulting figure and multiply it by 0.00% and this gives you the basic "CAP" or the amount of appropriations increase

allowed over the 2015 Total General Appropriations. The Total General Appropriations may also be increased by 3.5%, if prior, to the introduction of the 2016 budget an index rate ordinance is approved

by the governing body.

In addition to the increase allowed above, any increase funded by increase valuations from new construction or improvements is also allowed.

Also, the "CAPS" may be exceeded if approved by referendum. The actual "CAPS" for this municipality will be reviewed and approved by the Division of Local Government Services in the

State Department of Community Affairs, but the calculations upon which this budget was prepared are as follows:
